

Do you identify as or desire to be *transsexual/transgender*? Please take this survey!

This is an independent research study to understand the psychology underlying the desire for transsexual/transgender hormonal treatments and operations. Study participants must have NOT already gone through a full sex change operation. Your name is not necessary. Please answer all questions as honestly as possible.

Photograph completed surveys and email to shiranotes@gmail.com

If you are interested in participating in further research please let me know.

Age:

1. What is your biological sex? M/F
2. What body do you most identify with? M/F
3. What sex are you attracted to? M/F/Both

If you answered *Both* to question 3 please answer 3a.

- 3a. If you are attracted to both sexes, how high would you rate the attraction to each sex?
(1-10 for men, 1-10 for women, 1 being low, 10 being high)

4. Do you desire a sex change operation? Y/N

If yes, why? Circle all that apply. Rate top 3 answers from highest to lowest importance by marking, "1, 2, 3."

- a. I do not feel right in my biological body, i.e. I experience sex identity disorder/gender dysphoria.
- b. I feel more masculine than feminine or feminine than masculine; therefore, I should be in the opposite sex body.
- c. I want to be with the same sex as the opposite sex (opposite sex envy).
- d. I don't want to be gay and getting a sex change would make me straight.
- e. I want my feminine or masculine side to be accepted and I feel that a sex change is the only way to do that.
- f. I see myself as a spiritual being who wants to balance the masculine and feminine energies within.
- g. Other:
